“I booked a makeup lesson with Becca for my Daughter and I as a birthday treat and we had the best afternoon with her. She kindly created a gift voucher for me. **She is one of those people that you swear you must have met before because she puts you at ease straight away.** I have recently let my hair return to its natural silver/grey colour and didn't know where to start with adjusting my makeup to suit my more "mature" face!! Becca instantly knew what was required and gently guided me through the process making me feel fab at the end of it. Whether you need a bit of a re-fresh or a whole new you I wouldn't hesitate to recommend Becca, she has a wealth of experience, will make sure that you find the look that you want and teach you how to re-create it for yourself”
